

# 2023 Accident and Health Policy Experience Report

---

2024

*The NAIC is the authoritative source for insurance industry information. Our expert solutions support the efforts of regulators, insurers and researchers by providing detailed and comprehensive insurance information. The NAIC offers a wide range of publications in the following categories:*

**Accounting & Reporting**

Information about statutory accounting principles and the procedures necessary for filing financial annual statements and conducting risk-based capital calculations.

**Consumer Information**

Important answers to common questions about auto, home, health and life insurance — as well as buyer's guides on annuities, long-term care insurance and Medicare supplement plans.

**Financial Regulation**

Useful handbooks, compliance guides and reports on financial analysis, company licensing, state audit requirements and receiverships.

**Legal**

Comprehensive collection of NAIC model laws, regulations and guidelines; state laws on insurance topics; and other regulatory guidance on antifraud and consumer privacy.

**Market Regulation**

Regulatory and industry guidance on market-related issues, including antifraud, product filing requirements, producer licensing and market analysis.

**NAIC Activities**

NAIC member directories, in-depth reporting of state regulatory activities and official historical records of NAIC national meetings and other activities.

**Special Studies**

Studies, reports, handbooks and regulatory research conducted by NAIC members on a variety of insurance related topics.

**Statistical Reports**

Valuable and in-demand insurance industry-wide statistical data for various lines of business, including auto, home, health and life insurance.

**Supplementary Products**

Guidance manuals, handbooks, surveys and research on a wide variety of issues.

**Capital Markets & Investment Analysis**

Information regarding portfolio values and procedures for complying with NAIC reporting requirements.

**White Papers**

Relevant studies, guidance and NAIC policy positions on a variety of insurance topics.

## 2023 Accident and Health Policy Experience Report

### INTRODUCTION

The *Accident and Health Policy Experience Report* was originally created in 2010 using 2009 data, with the intention of meeting the growing demand for information on health insurance. The *Accident and Health Policy Experience Report* includes aggregated data from the Accident and Health Policy Experience Exhibit (AHPEE), market share data based on the AHPEE, and more.

The health insurance market is expansive, with a variety of different types of health insurers. Employer-provided health insurance that is self-insured may be regulated by the federal government. Not all health insurers are required to file with the state insurance departments. For example, while many health insurance writers in California file with the California Department of Insurance (DOI), some companies are required to file with the California Department of Managed Health Care (DMHC). It is the peculiarities of the health insurance market that warrant caution being taken when analyzing the numbers within this report. Because the NAIC receives most filings from companies required to file with the state insurance departments, the data is not a complete depiction of the health market as a whole.

Some life insurance companies and fraternal insurance companies provide accident and health (A&H) coverage, as well as expected life coverages. Property/casualty (P/C) companies also may provide A&H coverage in addition to other lines of business. Some companies write primarily A&H insurance, even if they are licensed as life, fraternal, or P/C entities. Therefore, the AHPEE appears in all major NAIC financial annual statement blanks; i.e., P/C, health, and life. The AHPEE as it currently exists was added to the NAIC financial annual statement blanks that were used for reporting 2006 year-end data.

In 2021, the AHPEE was modified to provide state insurance regulators with additional data and improve consistency across the annual financial statements. While the AHPEE found in the annual financial statement was modified to include additional data fields, the structure and format of the *Accident and Health Policy Experience Report* remained the same for 2021. Changes to the report were deemed unnecessary given the summary information already contained in the report. While utmost care and consideration is given to provide quality data from the annual financial statement filings, due to changes to the AHPEE for filing year 2021, significant variances may have been filed by companies adjusting to the new reporting requirements. Therefore, comparing the 2021 report to prior years may result in significant deviations.

### Report Format

This report contains the following sections:

#### Aggregated Annual Statement Financial Data

This section reflects data reported in the AHPEE. The data is aggregated for all financial annual statement types and is then broken out by each financial annual statement type; i.e., P/C, health, and life.

#### Individual Business

This section contains breakouts of Individual Business market share data. The market share is based on premiums earned as reported in the AHPEE. Insurance groups are made up of insurance companies that are related by common ownership. The market share reports show data by group

for those insurers that are a member of a group. This allows the report to contain a more complete view of the market share information. The market share data is broken out by statement type and line of business.

The Individual Business breakouts are:

- Market Share for the Top 125 Insurers – This includes total market share across all business types for the top 125 groups.
- Top 25 Groups by Company – Individual company data is shown for each of the top 25 groups.
- Market Share Data by Statement Type – The data is broken out by business type. It includes breakouts of separate market share data in each statement type, including P/C, health, and life.
- Market Share Data by Line of Business – This consists of data broken out by line of business. It includes a total market share of the top 125 groups. Breakouts are provided for the aggregate of all lines of business, as well as by line of business (e.g., comprehensive major medical).

#### Group Business

This section contains breakouts of Group Business market share data.

The Group Business breakouts are:

- Market Share for the Top 125 Insurers.
- Top 25 Groups by Company.
- Market Share Data by Statement Type.
- Market Share Data by Line of Business.

#### Other Business

This section contains breakouts of Other Business market share data.

The Other Business breakouts are:

- Market Share for the Top 125 Insurers.
- Top 25 Groups by Company.
- Market Share Data by Statement Type.
- Market Share Data by Line of Business.

#### Grand Total (Individual, Group, and Other) Business

The final section contains breakouts of Grand Total (Individual, Group, and Other) Business market share data. The data in this section is not broken out by the separate lines of business included within the Grand Total.

The Grand Total breakouts are:

- Market Share for the Top 125 Insurers.
- Top 25 Groups by Company.
- Market Share Data by Statement Type.

### Company Index

An index listing the insurer groups and the individual companies included in the insurance groups reported in this publication has been added at the end of the report. Insurers continuously merge, change names, and buy and sell companies. However, the index gives a “snapshot” view of group structures as filed with the NAIC by the date this report was generated.

Comments on this report are encouraged so that the report will continue to evolve to meet the needs of its users. This data is maintained in NAIC databases and is available for additional application development. This data is also available for purchase by the public.

## Aggregation and Calculation of Data

This report uses the term “aggregated” to describe data developed by summing the financial annual statements of individual companies. In order to represent more completely the data as reported on the financial annual statements, all data is aggregated directly from the numbers reported to the NAIC.

## Definitions

The health insurance industry is broad, and not all terminology carries the same definition. To avoid ambiguity and help ensure this report is not misunderstood, definitions have been provided.

For more definitions commonly used in the insurance industry, please see the [Glossary of Insurance Terms](#) accessible from the [NAIC Research & Actuarial Department](#) web page.

**Accident Only or Accidental Death and Dismemberment (AD&D):** Policies that provide coverage, singly or in combination, for death, dismemberment, disability, or hospital and medical care caused by or necessitated as a result of accidents or specified kinds of accidents. Types of coverage include student accident, sports accident, travel accident, blanket accident, specific accident, or AD&D.

**Administrative Services Only (ASO) and Administrative Services Contract (ASC):** An uninsured A&H plan is where an administrator performs administrative services for a third party that is at risk but has not issued an insurance policy. The health plan bears all the insurance risk, and there is no possibility of loss or liability to the administrator caused by claims incurred related to the plan. Under an ASO plan, claims are paid from a bank account owned and funded directly by the uninsured plan sponsor, or claims are paid from a bank account owned by the administrator, but only after receiving funds from the plan sponsor that are adequate to fully cover the claim payments. Under an ASC plan, the administrator pays claims from its own bank accounts and only subsequently receives reimbursement from the plan sponsor.

**Comprehensive/Major Medical:** Policies that provide fully insured indemnity, health maintenance organization (HMO), preferred provider organization (PPO), or Fee-for-Service coverage for hospital, medical, and surgical expenses. This category excludes short-term medical insurance; the Federal Employees Health Benefits (FEHB) Program; and non-comprehensive coverage, such as basic hospital only, medical only, hospital confinement indemnity, surgical, outpatient indemnity, specified disease, intensive care, and organ and tissue transplant coverage, as well as any other coverage described in the other categories of the AHPEE.

Group business is further segmented under this category as follows (please note there is a separate category for ASO/ASC business):

**Single Employer:** Group policies issued to one employer for the benefit of its employees. This would include affiliated companies that have common ownership.

**Small Employer:** Group policies issued to single employers that are subject to the definition of Small Employer business, when so defined, in the group’s state of situs.

*Other Employer:* Group policies issued to single employers that are not defined as Small Employer business.

Multiple Employer Associations and Trusts: Group policies that are issued to an association or trust. This category also includes policies issued to one or more trustees of a fund established or adopted by two or more employers, or by one or more labor unions or similar employee organizations. The organizations include those that are exempt and those that are non-exempt from statewide community rating. This category does not exclude policies providing coverage to employees of small employers, as defined in the employer's state of situs.

Other Associations and Discretionary:

*Trusts:* Group policies issued to associations and trusts that are not included in the Small Employer, Other Employer, or Multiple Employer Associations and Trusts group categories. This category does not exclude insurance providing coverage to employees of small employers, as defined in the employer's state of situs. This category does include blanket and franchise accident and sickness insurance and insurance for any group that includes members other than employees, such as an association that has both employees of participating employers and individuals as members.

Other Comprehensive/Major Medical: Group policies providing comprehensive or major medical benefits that are not included in any of the categories listed above.

**Contract Reserves:** Reserves set up when, due to the gross premium structure, the future benefits exceed the future net premium. Contract reserves are in addition to claim and premium reserves.

**Credit:** Individual or group policies that provide benefits to a debtor for full or partial repayment of debt associated with a specific loan or other credit transaction upon disability or involuntary unemployment of debtor, except in connection with first mortgage loans. In some states, involuntary unemployment credit insurance is not included in health insurance. This category should not include that type of credit insurance in those states.

**Dental:** Policies providing only dental treatment benefits, such as routine dental examinations, preventive dental work, and dental procedures needed to treat tooth decay and diseases of the teeth and jaw. If dental benefits are part of a comprehensive medical plan, then include data under comprehensive/major medical category.

**Disability Income – Long-Term:** Policies that provide a weekly or monthly income benefit for more than five years for individual coverage and more than one year for group coverage for full or partial disability arising from accident and/or sickness. Includes policies that provide Overhead Expense Benefits. Does not include credit disability.

**Disability Income – Short-Term:** Policies that provide a weekly or monthly income benefit for up to five years for individual coverage and up to one year for group coverage for full or partial disability arising from accident and/or sickness. Includes policies that provide Overhead Expense Benefits. Does not include credit disability.

**FEHB Program:** Coverage provided to federal employees, retirees, and their survivors and administered by the U.S. Office of Personnel Management (OPM).

**Group Business:** Health insurance where the policy issued to employers, associations, trusts, or other groups covering employees or members and/or their dependents, to whom a certificate of coverage may be provided.

**Individual Business:** Health insurance where the policy is issued to an individual covering the individual and/or their dependents in the individual market. This includes conversions from group policies.

**Limited Benefit:** Policies that provide coverage for vision, prescription drug, and/or any other single service plan or program. Also includes short-term care policies that provide coverage for less than one year for medical and other services provided in a setting other than an acute care unit of the hospital.

**Long-Term Care (LTC):** Policies that provide coverage for no less than one year for diagnostic, preventive, therapeutic, rehabilitative, maintenance, or personal care services provided in a setting other than an acute care unit of a hospital, including policies that provide benefits for cognitive impairment or loss of functional capacity. This includes policies providing only nursing home care, home health care, community-based care, or any combination. This does not include coverage provided under comprehensive/major medical policies, Medicare Advantage, or for accelerated death benefit-type products.

**Medicaid:** Policies issued in association with the federal/state entitlement program created by Title XIX of the Social Security Amendments of 1965 that pays for medical assistance for certain individuals and families with low incomes and resources.

**Medicare:** Policies issued as Medicare Advantage Plans providing Medicare benefits to Medicare eligible beneficiaries created by Title XVIII of the Social Security Amendments of 1965. This includes Medicare Managed Care Plans—i.e., HMOs and PPOs—and Medicare Private Fee-for-Service (PFFS) Plans. This also includes all Medicare Part D prescription drug coverage through a Medicare Advantage product whether sold directly to an individual or through a group.

**Medicare Part D – Stand-Alone:** Stand-alone Part D coverage written through individual contracts, stand-alone Part D coverage written through group contracts and certificates, and Part D coverage written on employer groups where the reporting entity is responsible for reporting claims to the federal Centers for Medicare & Medicaid Services (CMS).

**Medicare Supplement:** Policies that qualify as Medicare Supplement policy forms as defined in the NAIC *Medicare Supplement Insurance Minimum Standards Model Act* (#650). This includes standardized plans, pre-standardized plans, and Medicare select.

**Other Business:** Any business that is not included in the Individual Business or Group Business listed above, including credit insurance, stop loss/excess loss, ASO, and ASC.

**Other Group Business:** Group policies providing health insurance benefits that are not included in any other group business category of the AHPEE should be reported as other group business.

**Other Individual Business:** Individual policies providing health insurance benefits that are not included in any other individual business category of the AHPEE should be reported as other individual business.

**Other Medical (Non-Comprehensive):** Policies such as hospital only, hospital confinement, surgical, outpatient indemnity, intensive care, mental health/substance abuse, and organ and tissue transplant (including scheduled type policies), etc. Expense reimbursement and indemnity plans should be included. This category does not include TRICARE/CHAMPUS Supplement, Medicare Supplement, or FEHB Program coverage.

**Short-Term Medical:** Policies that provide major medical coverage for a short period of time, typically 30 to 180 days. These policies may be renewable for multiple periods.

**Specified/Named Disease:** Policies that provide benefits only for the diagnosis and/or treatment of a specifically named disease or diseases. Benefits can be paid as expense incurred, per diem, or as a principal sum.

**State Children's Health Insurance Program (CHIP):** Policies issued in association with the federal/state partnership created by Title XXI of the Social Security Amendments of 1965.

**Stop Loss/Excess Loss:** Individual or group policies providing coverage to a health plan, a self-insured employer plan, or a medical provider providing coverage to insure against the risk that any one claim or an entire plan's losses will exceed a specified dollar amount.

**Student:** Policies that cover students for both A&H benefits while they are enrolled and attending school or college. These can be either individual policies or group policies sponsored by the school or college.

**TRICARE:** Policies issued in association with the U.S. Department of Defense's (DOD's) health care program for active-duty military, active-duty service families, retirees and their families, and other beneficiaries.

**Vision:** Policies providing for vision-only coverage issued as stand-alone vision or as a rider to a medical policy that is not related to the medical policy through premiums, deductibles, or out-of-pocket limits. Does not include self-insured business, FEHB plans, or Medicare and Medicaid programs.

## Qualifications

The accuracy of the reports included in this publication depends on the accuracy of the information contained in each AHPEE filed by insurers. Even though the data elements used to prepare the reports are extracted from exhibits filed with the NAIC, the NAIC cannot verify or guarantee the accuracy of every data element.

While the NAIC exercises a great deal of care in capturing data from the financial annual statements and producing various reports, as with any statistical project of a significant magnitude, errors can occur. Consequently, the NAIC makes no representations or warranties with respect to the accuracy of the data and statistics in this report.

**Please send any questions regarding this report to [researchrequest@naic.org](mailto:researchrequest@naic.org). Links to this report and other NAIC reports can be found on the NAIC website at: [NAIC Publications](#).**

# **Accident and Health Policy Experience Report Technical Notes**

## 2023 Accident and Health Policy Experience Report

### Technical Notes

The data contained within this report is from data filed in the Accident and Health Policy Experience Exhibit (AHPEE). The AHPEE appears in all major NAIC financial annual statement blanks.

Starting with data year 2010, reasonability validations were added into the software data checks of NAIC company filings. A ratio of one individual policy or certificate per 10 covered lives should not be exceeded in individual business. Another validation check is for company filings that did not have both premiums earned and year-end policy/certificate or covered life counts reported in the AHPEE. While it is possible for a company to have premium with no lives/policies if it is in run-off, adding a validation should help to reduce filing errors.

While these validations should help to reduce anomalies, errors may still occur.

In 2021, the AHPEE was modified to provide state insurance regulators with additional data and improve consistency across the annual financial statements. The following changes were made to the AHPEE in 2021:

- “With Contract Reserves” and “Without Contract Reserves” individual business were removed from all lines of business.
- Summary tables were removed (Parts 1 through 4).
- Short-Term Medical split into “6 Months or Less” and “Over 6 Months.”
- “Vision” was included in the group and individual sections.
- Additional Columns were added:
  - ❖ Direct Premiums Written
  - ❖ Assumed Premiums Earned
  - ❖ Ceded Premiums Earned
  - ❖ Net Premiums Earned
    - Formula for Net Premiums Earned:  
Direct Premiums Earned + Assumed Premiums Earned + Ceded Premiums Earned
  - ❖ Assumed Incurred Claims Amount
  - ❖ Ceded Incurred Claims Amount
  - ❖ Net Incurred Claims Amount
    - Formula for Net Incurred Claims:  
Direct Incurred Claims Amount + Assumed Incurred Claims Amount +  
Ceded Incurred Claims Amount
- Report AHPEE by State

### Aggregated Annual Statement Data

All lines on all pages are aggregated data.

### Individual Business

All data is aggregated from the Individual Business section (Section A, Lines 1 through 19) of the AHPEE. This section has information concerning direct business written on policy forms approved for use in the U.S.

### Group Business

All data is aggregated from the Group Business section (Section B, Lines 1 through 21) of the AHPEE. This section has information concerning direct business written on policy forms approved for use in the U.S.

### Other Business

All data is aggregated from the Other Business section (Section C, Lines 1 through 5) of the AHPEE. These data concern only U.S. policy forms.

Total Non-U.S. Policy Forms from the Total Business section (Section D, Line 1) for non-U.S. policy forms are included in the Other Business section of this report on page 258.

### Grand Total (Individual, Group, and Other) Business

All data is aggregated and are U.S. policy forms; i.e., Grand Total of the AHPEE (Line D.2) – Total Non-U.S. Policy Forms (Line D.1). Equivalently, Lines A.19 + B.21 + C.5.

### Market Share

Companies reporting negative premiums are included in the calculation of total premium. Due to the addition of negative premiums to the total premium, the cumulative market share is capped at 100%.
